I would like to introduce myself to you. I am based in south-central Pennsylvania.

I can do live or online auctions. It all depends on how you want to do it. It is your decision.

I have attached a few videos of the past of me selling in New York, Indiana, and Pennsylvania. I do all forms of auctions. They are getting old, and I am much faster now. I also have references if you need.

I have people that are professional in most fields whether its commercial restaurant, farm, office equipment, personal property, antiques, coins and more that can help me do what needs to be done if you need them. We have several people that study items from commercial equipment, agriculture, manufacturing, coins, firearms, civil war era, WWII, and western and the list goes on that are experts on those fields. We are even an FFL Dealer to make sure that all firearms are in the right hands.

We can do auctions and appraisals in over 40+ states, so we can handle any size job. With my education and knowledge, we can be licensed in all 50 states if needed. I am insured and bonded and I can get whatever bond amount that you require us to have for the auction.

Please contact us today so that we can set up an appointment. We can work together to get the job done for you. Whether you want to do a live auction with our help or an online auction using our own platform. We can do either.

Look Forward to Hearing from You
